

Jurisdictions and Languages that Just Missed Coverage in 2016 Section 203 Determinations (i.e., 7,500-9,999 LEP or 3.9-4.99 percent LEP)

Analysis of U.S. Census Bureau’s December 5th 2016 Section 203 Determinations Public Use Data shows that 176 language groups across 28 states just missed coverage (i.e. had 7,500-9,999 or 3.9-4.99 percent LEP of a single language group). Further breakdown of this analysis shows that 6 Alaska Native-, 70 American Indian-, 24 Asian-, and 76 Spanish-language jurisdictions just missed coverage. These jurisdictions and languages are close to meeting the Section 203 threshold and may very well meet the threshold during the next determinations scheduled for 2021. These jurisdictions can, and should, proactively begin to provide some level of language assistance to these language groups before the next determinations. See the language access guides published by Asian Americans Advancing Justice – AAJC, National Association of Latino Elected and Appointed Officials, and The Fair Election Center available at <http://www.naleo.org/languageaccess> for more information about what proactive, voluntary assistance can be provided.

List of Just Missed Section 203 Coverage by Jurisdiction
